Project Status:

Construction Completed in 2007

Engenuity Group Fee:

\$224, 295.00

Estimated Construction Cost:

±\$1,500,000.00

Actual Construction Cost:

\$1,726,903.00

Engenuity Group Performed the Following Services for this Project:

The purpose of this project was to design a backbone roadway, drainage, water distribution, and wastewater collection system to serve several multiuse parcels that would be sold and developed by others. The first of these parcels to be sold was developed as a gas station/convenience store and fast food store which was also designed and permitted by Engenuity Group. Our services included topographic and utility survey, preparation of civil engineering plans, permit preparation and coordination, construction administration and inspection, and permit certification.
