

**Project:** Palm Beach County International Airport (P.B.I.A.)

**Contact:** Andre Rayman

**Project Status:** All projects completed On-Time & On-Budget.  
Some projects On-Going.

**Engenuity Group Performed the Following Services for this Project:**

Our experience dates back to 1985 when we were hired by the contractor Bechtel to stake and "as-built" the 1100 piles that support the airport building and parking garage. At P.B.I.A. we have field staked and "as-built" underground utilities, staked and "as-built" runways for resurfacing and staked out the new south taxiway.

Engenuity continues to work with many airport contractors as needed.
